AFFECT ON STOCKS

ever, to Cause Serious Break on Account of Criticism-Wall Street Dealers Inclined to Pin Their Faith on Courts as Against Executive.

New York, July 24.-The statement of President Roosevelt, in which he declared that, although it has not been proved, the Standard Oil Company is guilty of "offenses of exceptionally grave character" overshadowed the market today, and caused reactions, which in some of the most active stocks amounted to as much as 3 or 4 points from their re cent high levels.

That the effect was not greater testified to the underlying strength of the market, for had stocks been largely held in weak hands the selling by fringhtened speculators might have caused a serious decline. As it was, the matter served to draw attention to the facts that the courts can be depended upon to deal out justice, even at the risk of incurring the President's displeasure, through the frustration of his designs to chastise what he has frequently described a "bad corporation," and at the same time was a reminder that as long as Mr. Roosevelt re

no particular degree of vigor. One of the rumors current to account for the renewed outburst of selling in the early afternoon was that two capitalists generally credited with a prominent par in advancing the market were about to go away for long vacations, and similar stories were told of the alleged intentions of other operators of less consequence on the bull side.

Big Stocks Show Decline,

As was natural, stocks that earlier in the week scored the largest net advances were among the chief sufferers, Westing house declining 4 points, Brooklyn Union Gas 4%, and Union Pacific, New York Air Brake, General Electric, and American Sugar Refining 2 or more points each The volume of transactions in stocks was semaller than yesterday, the total being New York, July 28.-United States government under 800,000 shares, and the dealings in bonds were quoted as follows: bonds were less than half of yesterday's 2s, registered 1990....

TheSafest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the finencial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
